Davi Resner

Profession

- M.Sc student in Computer Science at the Federal University of Santa Catarina (UFSC) 🔗
- Scholarship at the Software/Hardware Integration Lab (LISHA) at UFSC
- Weekly schedule (outdated)

Research Activities

Research Topics

- Wireless Sensor Networks
- Internet of Things
- Network Security

Current Projects

- TSTP: Trustful Space-Time Protocol
- Experiment: Dynamic Distributed Deadline-Aware Collision Avoidance
- EPOS II / EPOSMoteIII

Past Projects

- Implementation of secure key bootstrapping protocol for WSNs
- TSTP in the IoT
- Master's
- Trustful Communication for the Internet of Things
- IPSense
- Short course: Computer programming in C
